Reliable routine service
for your comfort and safety.

- ✓ BPW & SAF
- ✓ DAF & MAN
- ✓ RENAULT & VOLVO
- ✓ MERCEDES
- ✓ SCANIA

WHO WE ARE

Spitze is an independent aftermarket brand offering precision engineered spare parts for European commercial vehicles. Our focus is quality, reliability and long term partnerships.

Since its foundation, Spitze has combined German engineering with modern testing, customer focused development, and efficient supply chain systems. Every product is designed to bring OE level performance with better value and more flexible availability.

Spitze started as a specialist brand for braking components. With steady growth, feedback from workshops, and close cooperation with distribution partners, the brand has expanded into a complete range of truck and trailer parts.

Today, Spitze is trusted by leading distributors, fleet operators and workshop networks for its consistent quality and responsive service. Our catalog is easy to navigate and presents accurate product information.

Packaging is clear, secure and designed to maintain product integrity during transit. Every label gives essential information at a glance and includes secure authenticity features.

With Spitze, you get premium quality products, traceable packaging, and a support team that listens and responds.
